PERSONAL PROJECTS

ProxLox (02/2019 – 05/2019)

- Our team decided to create something that would help on lowering those crime rate averages in our nearby cities, states, and even the entire country. We created ProxLox, our product is placed on front doors to replace the need for a key with a built in finger scanner. No more fumbling for keys while trying to enter, you simply scan your finger to open. <https://sabriayaklur.wixsite.com/proxlox>
